Summary Statement

I have hands-on experience working on projects such as profiling systems, real estate-related platforms, and healthcare-based applications using technologies including HTML, CSS, C#, ASP.NET, and Python, with the support of AI tools. I am seeking an opportunity in a professional environment where I can apply my practical experience, develop new skills, and contribute to the organization in any role that allows me to learn, grow, and gain real-world experience.

Skills

- Developing: HTML, CSS, C#, ASP.NET, Python
- Multimedia: Simple Video Editing
- Creative
- Open to Criticism
- Driven
- Sociable
